

Welcome to 21st NORTH

Optimised Mineral Exploration

Knowing how to reduce your risk and increase your organisations profitability is a great challenge facing the exploration and mining industry when operating in unfamiliar territories.

21st NORTH is an independent Danish consulting company providing a range of services for the mineral industry. We strive at delivering and executing high-quality, innovative and cost effective solutions based on more than 3 decades of in-house experience with mineral exploration and logistical planning in Greenland and Scandinavia.

- ✕ Experts on mineral exploration and logistical planning in remote inaccessible regions of Greenland and Scandinavia.
- ✕ Intelligent and cost-effective services based on a comprehensive network of alliance partners with complementary skills.
- ✕ A strong liaison with national surveys and mineral authorities guarantees complete one-stop shop holistic solutions.
